Partners To Take Up Option On Golf Course This Year

Robert Mezzetti, San Jose, attorney for the Ponderosa Golf Club, Inc., advised the board of directors of the Truckee Public Utility District at their meeting last week that the corporation plans to exercise its option this summer and purchase the golf course just south of Truckee on the Brockway shortcut, Manager Frances Longo siad.

The corporation, comprising Alex Stewart, Jackie Jensen and Reynold C. Johnson, plans to open the course just as soon as the snow condition permits and necessary repairs are made.

The two partners, Jensen and Stewart, took and option on the course two years ago for $160,000 and have paid $20,000 on the purchase price, Francis Longo, district manager, said. This leaves a balance of $140,000, plus $10,000 interest to be paid.

The agreement entered into at the time the option was given provided that the golf course be maintained and made available to the public for a period of at least ten years. The use of the land, aside from the golf course, will be determined by the new owners and the Nevada County Planning Commission.

At one time, while the land was under lease to Jensen and Stewart, they proposed a small motel and four homes on the 69 acres, but whether or not they still plan this development was not immediately learned.

Local Port Is Given Boost With Article

The March 2 issue of General Aviation News, published in the interest of private and commercial aviation, devoted more than a full page this week to the Truckee-Tahoe Airport, its board of directors and Manager Andy H. Creglow. The article is accompanied by six excellent photos, one of which adorns the front page of the widely-circulated publication.

A second article in the same paper captioned "Operator Commutes Between Bases at Truckee, San Diego," tells of the activities of Howard Fisher, fixed base operator at the local airport and the Lindbergh Field at San Diego. Mr. and Mrs. Fisher, the article declares, make weekly jaunts between San Diego and Truckee in their plane to keep both fields operating smoothly and to handle his Piper agency.

In the local field story, entitled "Local Businessmen Solidly Support, See Value of Truckee-Tahoe Airport," the writer goes into detail on each of the five busy directors, Jack Houlgate, Zeph Rose,

Everyone interested in helping with the Little Theater production is urged to attend this meeting or to call the director at 546-2775 or the company president, David Stollery at 583-4315.

Precipitation Low Despite New Storm

The 11 inches of snow which fell here Sunday added 1.11 inches of precipitation to bring the season's total to 17.54, compared to the normal of 22.75 for this time of the year, the U. S. Forest Service reported.

While the precipitation is below normal, a good pack of snow is on the ground and conditions generally are much better than last year, the forest service said.

Sierra Bond Vote Falls Short With Narrow Margin

Unless 92 of the 116 absentee voters favor the issue, the $2.5 million bond election for the Sierra Junior College, has again failed to carry by the very narrow margin of less than 100 votes.

Because of the pressing need for expansion of college facilities, it was indicated another election will be held. The first, held last September, failed by a margin of 211 votes.

Tahoe City, with 150 votes for and 72 against and Floriston with 17 to 1 favoring the bonds, were the only two local precincts giving the required two-thirds majority.

Truckee voted 127 for and 104 against, while Kings Beach voted 66 to 59 for the bonds. Soda Springs evenly divided with 15 for and 15 against.

Many Accidents Caused By Storm

How much safety do you want for your money?

Financial safety comes in all shapes and sizes. There are safe investments and risky investments—and ones that are in between. Depending upon how much risk you want to take, your money can be invested in a variety of ways.

Your savings, however, are another thing. This is money you do not want to *risk*—no matter how safe the investment appears. This is money you want to be able to count on at all times and under all conditions. And when you want your money that safe and that available—*you want it in the bank*

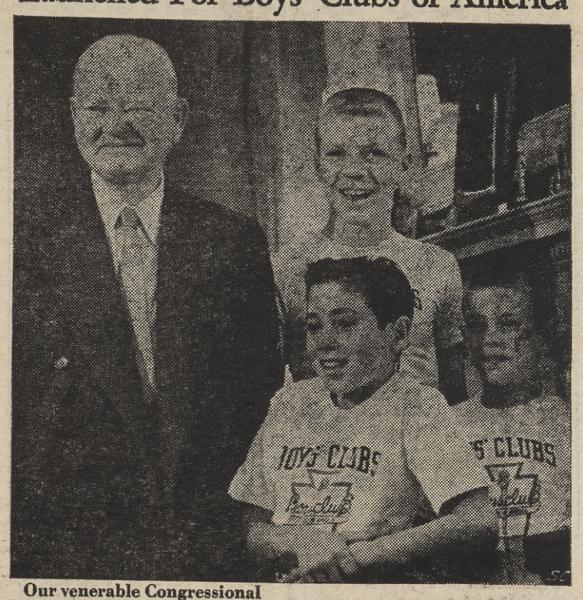
Herbert Hoover Development Fund Launched For Boys' Clubs of America



Our venerable Congressional Record, while sometimes more notable for the quantity than for the quality of its content, often provides news of interest to a great many citizens.

Congressional Record
PROCEEDINGS AND DEBATES OF THE 88th CONGRESS, FIRST SESSION

One such item was recently revealed with the announcement by Congressman John V. Lindsay (R. NY), of the formation by the Boys' Clubs of America of the "Herbert Hoover Development Fund."

In announcing the Fund's foundation, Congressman Lindsay, in whose district Mr. Hoover resides, reported that its purpose is the establishment of 1,000 Boys' Clubs, serving one million deserving boys.

Explaining that Mr. Hoover has served as the very active board chairman of the Boys' Clubs of America for 26 years, the Congressman said the former President describes Boys' Clubs as being "after the home, church and school, the greatest character-building institutions in our country today." There are now some 635 Boys' Clubs, serving close to 700,000 deserving boys, in more than 410 cities throughout the country.

For many years, Mr. Hoover has maintained — and studies have proved — that these Clubs play a major role in combating juvenile delinquency. Now, through the establishment of this Fund, it is hoped that, to quote A. L. Cole, president of the Boys' Clubs of America, "all Mr. Hoover's friends and admirers will now help make his dream a reality."

CAMPBELL ELECTED BY SIERRA PACIFIC

Directors of Sierra Pacific Power Company have elected Richard G. Campbell to the position of vice president and general counsel. Campbell has been general counsel for the Power Company since 1961.

Announcement of the promotion was made by Fred L. Fletcher, president of the power company. "Growth of the area we serve, and growth of the Company, have made legal matters more and more important in providing good service. Sierra Pacific Power Company is fortunate to have a legal counsel with Dick Campbell's fine background in utility matters," Fletcher said.

Before joining the Sierra Pacific executive staff, Campbell was a member of the public service commission of Nevada for two years, and during 1960 and 1961 was chairman of Governor Grant Sawyer's committee for nuclear power.

It was while he was chairman of the nuclear power committee that a forum on nuclear-fueled power plants was conducted in Reno. Experts from major firms in the field appeared at the forum to describe newest technical developments in atomic energy.

The 48 northern counties of California contain only 41 per cent of the state's population.

NOTICE TO BIDDERS

NOTICE IS HEREBY GIVEN that sealed bids will be received by the Board of Directors of the Truckee Public Utility District, Truckee, Nevada County, California on or before but not later than 2:00 o'clock P. How to save for a rainy day and help your country now

Sometime, you may have an emergency which will affect the future of your family. It's kind of comforting to have a fund standing by to help you meet that emergency.

Your country also has emergencies to meet in the day to day job of keeping peace and standing up for freedom.

You can help meet both needs with U. S. Savings Bonds.

Your fellow Americans are already holding $47 billion in Savings Bonds—for rainy days, and sunny days, too. Why not join them? And see if you don't feel pretty good about it.

Buy Bonds on the Payroll Savings Plan where you work. Or at any bank. No charge for the service.

blossoms flowering.

The TPA potluck supper far exceeded the expectations of the executive board and president, Dorothy Beck. Over 215 persons were in attendance and it was a huge success financially. Approximately $155 was taken in for the school library. Thanks was extended to everyone participating in this worthwhile project.

The TPA requests that interested mothers sign up for work in the new library by completing and sending back to school a notice students have received to take home. Either two or four hours a month may be donated with preference for days of the week and morning or afternoon. Dorothy Beck may be phoned by volunteers at 546-3361.

Doris Bradley of Incline Village entertained at a card party luncheon at her home on Wednesday. Guests enjoying the afternoon were Pearl Draney, Eleanor Egan, Virginia Engelhard and daughter, Virginia Simonsen, Dorothy Jones of New Hampshire, Ruth Mizner and Marguerite Ashton.

Kathy Dix, of Incline Village, a student at Wooster High School in Reno had the misfortune to break her ankle while ice skating at Squaw Valley last week.

Ron Porath, son of Roy Porath of Kings Beach, is now stationed at San Diego in boot camp for the U. S. Navy. Ron left February 19.

Mr. and Mrs. Ray Bolger flew up frmo Beverly Hills for the weekend as guests of Jack and Darlene Knorpp at Crystal Shores.

Mr. and Mrs. Brian Taylor of San Francisco were weekend guests of Jack and Darlene Knorpp at Crystal Shores.

Mr. and Mrs. George Stevenson of Fairfax were weekend visitors to their daughter and son in law, Tally and Bob Daneri at Kings Beach.

Hear that the Laverys — Dick and Ruth may no longer celebrate St, Patrick's Day. After leading the life of nomads these past few weeks, catching fish — marlin, no less — and making plans for a leisurely trip to Florida where they plan to visit Addie Free at St. Petersburg and expect to see Al Cook at Nassau, Dick thinks they are Gypsies! Think a May return to Tahoe when there will be no snow shoveling.

The choir of the Kings Beach Methodist Church held a dessert card party in the Fireside Room on Thursday. Hostess was Kay Felte assisted by Bern Franklin and Helen Ehlers. Present at the party were Marguerite Ashton, Marian Mueller, Jean Sundquist, Pearl Draney, Louise Walter, Adeline Gunkel, Charlotte Applewhite, Eleanor Egan, Jane Tenneson, Iva Montgomery, Caryl Wilbur, Eunadell Crawford, Pat Dardis, Ruth Mizner, Ardith Burrill, Harriet Price, Beth Anderson, Catherine Abbott and Frances Cernasak. Homemade cake and coffee were served to the guests by the hostesses.

Almost $25 was realized by the affair with the funds to buy music, choir gowns and take care of cleaning.

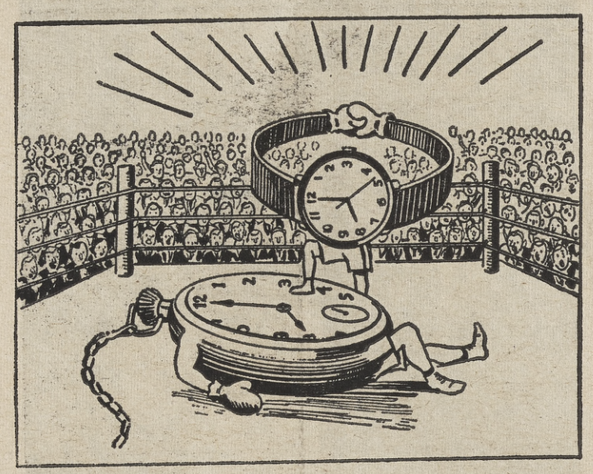
Al and Marilyn Simonsen and baby daughter, Linda Jean, left Wednesday for Lemoore. Marilyn had been staying with her parents, Greg and Virginia Engelhard at Incline Village, until their premature baby was released from the hospital.

Mr. and Mrs. LeRoy Hiatt of Saratoga and Mr. and Mrs. LeRoy Widman of San Jose were weekend guests of Mr. and Mrs. Kenneth Hiatt at Kings Beach.

The Women's Club of North Tahoe are very proud of the decorations made for their Hat Party under the chairmanship of Eleanor Egan. Not only were they complimented the night of the party but the Nevada Lodge requested that the Women's Club leave the decorations for their Sunday night buffet. A second request for the use of the decorations was mode for the Century Club of Reno through Mrs. Charlotte Applewhite of Incline Village. Again, thanks to Eleanor for her work and ingenuity and to her committee.

Congratulations to Bill and Janet Ellison of Kings Beach on the birth of a third son on February 23 at Tahoe Forest Hospital in Truckee. Earl Patrick weighed in at 6 pounds, 12 ounces and was welcomed home by brothers, Eric, 3, and Leif, 1½.

CANADA Do You Know?



Traditional heavy brass pocket watches, used by conductors, engineers and other railroaders for generations, have been doomed to the same fate as steam locomotives on the continent-spanning lines of the Canadian National Railways. Wrist watches are taking over.

The switch from the old-fashioned pocket watches to smart split-second accurate wrist watches for the men who run the trains came about after six years of testing by CN of most wrist watches available to find which ones meet the demanding specifications of railroading.

Two models have been approved; one an electronic timepiece and the other a spring-wound chronometer. Both models have been tested at an observatory to insure accuracy.

On the Canadian National, railroad watches must not vary more than two seconds a day or 30 seconds a week and they are inspected every three months. They must be waterproof, shockproof and anti-magnetic.

Tailors, too, have played an unsuspecting part in the switch to wrist watches. "They just don't make trousers with special pockets for watches any more," one of the veteran conductors on the "Super Continental" mourned. F.N.S.

FOUR ARE SEEKING SUPERVISOR POST

NEVADA CITY — Four candidates have announced their intention to seek the Supervisorial District 1 seat now occupied by Gene Ricker, and a fifth potential candidate is holding off on his decision until he determines what support he might draw in the campaign.

In Supervisorial District 2 it appears at this time that the race will be between incumbent Supervisor Tabe Bishop and Melbourne Hedrick, Grass Valley resident who works at Weimar Hospital.

Supervisor Gene Ricker of District 1 faces multiple opposition from Dick Knee, Herb Dodini, Mosco Smart, and possibly Gordon Henry.

Costumes May Be Worn By Park Men

Personnel at state historic parks may be going in for costumery one of these days, according to Capitol News Service.

The state park commission has asked its staff in the division of beaches and parks to give strong consideration to establishing period dress at state historic parks.

The proposal was advanced by Karl Wray, commissioner of San Clemente, and seconded by other members of the commission. Wray suggested such sites as Bodie, Columbia, La Purissima, San Francisco Maritime and Fort Ross. At Columbia, in fact, concessioners signing new contracts are required in the agreement to establish period dress among employes.

"We should urge utilizing period dress in certain state historic parks," Wray said. "It will add to the visitor experience and enjoyment, provide some degree of authenticity, give everyone a more correct impresison of what the area was like during the period it was significant to our history."

The commission will consider the proposal again in September, while studies are made concerning costs and the attitudes of employes about wearing period dress.

In 1963, California produced 46.3 million barrels of cement.

Tom James, Fred Schultz and Lauren Russell, giving their qualifications, their background and activities. Manager Creglow is also highlighted.

Clyde Barnett, director of the California Aernautics Board, was credited with maintaining interest in the airport from its initial planning to completion.

"It was at a meeting at Smart's Restaurant, snowing outside, colder than heck, and it seemed like a heck of a time to start talking about an airport," Barnett is quoted as saying.

"The airport has changed concept several times since then, gone through several transitions. We were very lucky in that so few people involved met with such great success."

Saying 'No' Is Our Greatest Service

Occasionally a customer asks us for some medication he's read about, and we must refuse him. The reason is that the particular medicine must be taken under a physician's supervision and is available only on prescription. This is a safeguard to your health.

As your pharmacist, we suggest you call your physician if you feel you need potent medication. We'll be happy to fill his prescription. Until then, perhaps our greatest service is saying "no."
